

Welcome to HFHN's Renweb! –

RenWeb is a web-based data system that HFHN uses for student demographic information, attendance, grades and more. The Parents Web portion of RenWeb allows parents access to school and student information whenever and wherever you have access to the web!

Renweb is a product which will allow a vast variety of information to be communicated! If you have never accessed our RenWeb-Parents Web site before, read the following directions. To access Parents Web directly, please go to www.HFHN.org, click on Parents Corner tab and RenWeb Login. Please make sure the office has been given an up-to-date e-mail address or you will not have access to your child's account.

School Home – where you will find Announcements and Calendar information

Calendar – another way to access calendars

Classes – a listing of your child(ren)'s classes and teachers. You will be able to access your child's grades, class announcements, calendar, homework and more!

Latest Newsletter – Miss Felix's weekly newsletter is posted in this area. This is where you find the latest information regarding upcoming events and school activities.

Resource Documents – HFHN Student & Parent Handbook, Dress Code, Calendars, Registration forms, tuition forms, etc.

Web Forms – This is where you can see the demographic information HFHN has listed about your child(ren). PLEASE check all information, make corrections and additions and SAVE for each category.

Student Access to Renweb:

PLEASE do not allow your child(ren) to access Renweb using your parent e-mail and password! We would like all students in Grades 3 – 8 to access Renweb under their own log-in, so that they may have access to homework, announcements and grade postings. During the school year your child(ren) will be given this information so they will be able to log into Renweb as a student to access information.

Student Information:

Here you will find class listings for your child(ren). Announcements, calendar and homework may be accessed by choosing each class. More information can be found under "Homeroom". Grades are available for students in grades 3 – 8 only.

Family Information:

Again, this lists the demographic information held by Renweb about each student and each parent entered into the system. Corrections may also be made through Web Forms in this section. You may change your Renweb password here at any time! Forgot your password? Contact the HFHN Office.
